Student Satisfaction Survey (SSS) on Overall Institutional Performance

Academic Year 2022-23

The primary purpose of higher education is the creation and dissemination of knowledge for the development of the world through innovation and the preparation of students' minds. As a result, institutions of higher education increasingly recognize and prioritize meeting the expectations and requirements of their students. Therefore, the existence of higher education institutions is primarily motivated by the completion and enhancement of students' education. This positive trend in higher education demonstrates the necessity for educational institutions to comprehend student satisfaction in a competitive environment. Students must be satisfied with factors pertaining to a comfortable learning environment, learning resources, campus accessibility, and support of faculty, laboratory and instructional facilities. Our institution conducts student satisfaction surveys in an effort to elicit student feedback on the various parameters. We have prepared questionnaire for student survey by considering all the aspects.

For the academic year 2022-23, the institute has conducted Students Survey on **3rd March, 2023** through feedback form.

Outcomes:

This survey appears to be an earnest endeavor to collect feedback in order to enhance the student experience at the institution. The survey's results are displayed as pie charts below. The analysis of the results reveals that the vast majority of students have a favorable opinion of the institution's facilities. In addition, we noticed a few remarks that will help us develop in certain areas.
